

“Love to Learn”
Our vision and pledge for excellent Parents

Engage & Inspire

- We uphold high expectations for our children's work and behaviour at home, completing homework to a high standard.
- We encourage our children to take advice given and learn from mistakes.
- We provide our children with varied experiences and interests to inspire them to develop their own ideas.
- We encourage independences and determination in children so they develop a love for learning.
- We encourage our children to take part in every opportunity the school provides.
- We read with our children regularly and take opportunities to model a love for reading to our children.

Nurture & Growth

- We communicate in a positive, supportive way to school staff and build trusting relationships, letting the school know if there are concerns which might affect my children.
- We provide our children with the best start to each school day; presented well, organised, on time, with good attendance and ready to learn.
- We take an equal responsibility for our children's education as a part of their life-long development.
- We engage with the school and other agencies well, working together to support our children's wellbeing.
- We embed in our children strong British values, such as an understanding of community spirit, how to be a good citizen, respect, equality, working together in a multicultural society and developing excellent personal and social skills.

Pride & Joy

- We take a keen interest in our children's learning and we value and celebrate their efforts and achievements.
- We encourage self-confidence and pride in our child's own identity, culture and heritage.
- We encourage our children to be proud of themselves, what they have learnt, their school and their community.
- We show our pride as parents at being part of the school community.
- We communicate our children's successes and interests outside school so these can be celebrated within school.
- We support our children to develop the resilience to manage the challenges of learning and to enjoy and embrace their education.
- We model respectful behaviour and excellent manners towards the whole school community and are positive role models for our children.
