Love To Learn

9 May 2019

Dear Parent

THE GREEN TEAM – RECYCLING BATTERIES

Your child will bring home with them sometime this week a box for your family to put in any used batteries. Once full, the batteries, (not the box) can be put in the large battery box in the office area for recycling. This is another recycling initiative from the school Green Team along with the pens (box also in the school office) and crisp packets.

On another note the Green Team are sadly lacking in plants for the allotments. If you find over the next few weeks that you may have one or two to spare then please let the school office know and Mrs Tuisavura will contact you if required.

Many thanks.

The Green Team
