- 11 July** – Y4L Ospreys Trip
- 12 July** – Y4P Ospreys Trip
- 19 July** – End of Summer Term 2

CURRICULUM OFFER

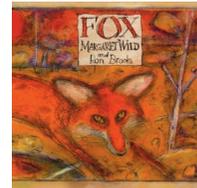

YEAR 4

SUMMER 2 2019

THE POWER OF READING

This term we will be reading 'Fox' by Margaret Wild and Ron Brooks. Fox follows the story of a dishevelled magpie and an injured fox. When Dog runs with Magpie on his back she is his missing eye and he is her wings. But then Fox comes "with his haunted eyes and rich red coat..." Fox is the outsider, the one who doesn't belong. Here in Australia, foxes are feral pests, a fact that is emphasized by Fox's malevolent nature. This is a beautifully illustrated book that has links with geography, D and T and PSHE and our Australian topic.

Australia Day

To bring our exciting and adventurous topic of 'Australia' to life, we will be holding an **Australian day** during the term. The culture of Australia will be explored through some exciting class activities discovering their famous animals and landmarks. We will also be designing and making boomerangs to test out on playground!

Osprey Trip

We will also be putting our fiver challenge money towards a great day out visiting the Osprey project at Rutland Water.

R.E.— Christianity

This term the children will be continuing to learn about Christianity including attending the annual **Churches Together Day**. This involves a nice stroll into town and a fun packed day exploring a theme of Christianity. Throughout the day, children will sing songs, partake in crafts and meet people from our local community.

SPORTS

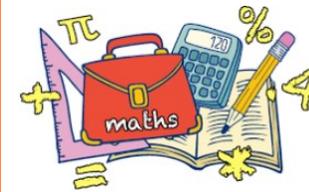

This term the main sports will be **cricket** as well as continuing with our Daily Mile. We want to encourage competitive natures through our house sporting events; the 3 houses (Dahl, Rowling and Walliams) will compete against each other to win the cricket house tournament this term!

SCIENCE: Electricity

We will have an electric and fun term in science, investigating different aspects of electricity. We will be looking at the dangers of electricity, and how to build simple circuits, including switches.

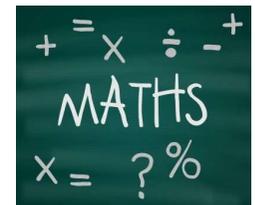

Maths: Decimals, time and money

This term, We will be looking at time, statistics, graphs, position shape and direction. In addition, we will be reviewing some of the more challenging areas of Year 4 such as arithmetic, area and fractions.

If you want extra practice, do the **Year 4 boosters on My Maths** as we keep up with all the brilliant mathematical skills we have learnt through the year. Keep up the Arithmetic practice, as these skills are vitally important to succeeding in mathematics and essential life skills too!

MUSIC – Recorder Karate and singing Australian songs and looking at instruments. We will also be preparing the songs for Churches Together.

ART – Dot painting inspired by Aboriginal Dreamtime and Indigenous Birds of Australia including the Kookaburra.

ICT – We will be looking at programming skills using the online website **code.org**.
