CURRICULUM OFFER

YEAR 5

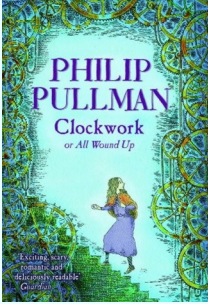

Summer 2—2019

Power of Reading/Literacy

Clockwork or All Wound Up by Philip Pullman

A tormented apprentice clock-maker, a deadly mechanical knight in armour and the sinister Dr Kalmenius...This mysterious, gothic tale links our study of forces and mechanics with philosophy and a dark imagination!

This book will help to inspire a variety of writing styles, allowing the children to develop their writing skills further.

We will continue to enjoy taking part in the Reading Challenges to help bring our house to victory!

Trips and Visitors

We'll be spending an action-packed day at Tallington Lakes, where the children — carefully supervised by instructors — will all take part in a range of fun activities..

We will also be continuing our Go-Kart project with Cummins; preparing for race day!

We are also fortunate enough to be having a visit from NatWest who will be delivering a 'Money Minds' session to each class which will help to increase children's understanding of budgeting.

Sports

We will be continuing to build our stamina and fitness with the Daily Mile.

Our sports for this term will be cricket and rounders. We want to encourage competitive natures through our house sporting events; the 3 houses (Dahl, Rowling and Walliams) will compete against each other to win the cricket house tournament this term!

Maths

We will be practicing the life skills of solving problems involving units of measurement— working with time, measurements of length, capacity and volume.

We will continue to apply all the arithmetic and reasoning skills that we have learnt all year. We need to be able to explain our answers!

To further help our reasoning and problem solving skills, each class will be having sessions with Stamford Endowed Schools maths teachers.

MUSIC - Recorder Karate and also looking at the Georgian composer Handel and his works.

ART - We are continuing with our Georgian theme, including drawings of carriages.
