

Early Years Transition

Early Communication

We begin our communication with families and pre-school settings early, to build relationships and gain as much information as possible before our children start.

Curriculum Evening

During our curriculum evening, we discuss the Early Years year and tips for starting school. Parents are provided with a welcome pack full of key information.

Videos

We send a variety of videos home to share information with our new children and build excitement for starting school.

Videos include:

- A tour of the reception areas
- a 'hello' and a story from their new teacher
- songs/nursery rhymes.

'All About Me'

Children receive an 'all about me' booklet to complete on the build up to starting school.

This enables the children to share their voice in a fun and engaging way.

We offer guided tours throughout the year and an open evening for parents and families to visit our setting and see our learning environment.

Guided Tours

The children are invited to a 'Moving on up' session. This supports building familiarity of the environment alongside a person they already trust.

Moving on up

Our Foundation teachers will visit the children at their home, where they feel at ease and can get to know their family and even their pets!

Home Visits

Transition Visits

The children are invited to join us for a transition visit. During this time they will begin building relationships with staff and their peers and continue to build familiarity with their new environment.
