

## **After School Club/Activity Club Important Information for September 2018**

As we enter a new academic year could you please take the time to note the new times and days of the after-school activity clubs. We have adjusted our timetables and some of the club timings have also changed.

### **For Children Attending ASC**

Please also be advised that as of September 2018 the fees for clubs will be restructured. There will be a flat fee of £4.50 for all clubs with the exception of Jumping and Bounce Bambino. This will mean that if your child is currently booked into after school club but chooses to access an activity club we will no longer be issuing a charge and refund on their invoice, as the fee for after school club and the club will be the same. Therefore, the invoice will only show the after-school club which will then cover all eventualities. You will still need to send in an enrolment form to ensure that your child is registered for a particular club.

### **For Children Attending Activity Club Only**

All clubs will now be invoiced for, you will therefore need to submit your enrolment form as normal, along with an admission form to enable us to input your child's details onto our invoicing system. You will then be invoiced for any clubs that your child attends. Please do not send payment until a confirmation email has been received by yourself.

Please be aware that our clubs run half termly with the exception of Drama which runs for a full term, and a child can lose their place if they do not re-book with us.

If at the end of the school day a child turns up to a club and they have not booked/received a confirmation email, the parents will be contacted to either collect the child or book them into after school club. All our clubs have maximum capacity and these numbers must be adhered to.

### **Foundation stage children.**

During the first half of this term, we advise that Foundation stage children do not book on to clubs. We have found in the past that the children are still transitioning into their new way of life and it can all be a bit much for them. They are usually very tired and hungry directly after school and trying to get them to do additional activities is quite stressful for them.

## **Acorn Childcare centre after school activity clubs**
